B.tech CS - May 2021 - VITS, Indore

SUMMARY

Software Developer dedicated to constantly improving tools and infrastructure to maximize productivity, minimize system downtime and quickly respond to the changing needs of the business.

TECH STACK

Programming Languages

JavaScript
TypeScript
C
C++

Tools & Frameworks

React Native CLI
Expo CLI
Android Studio & XCode
Firebase console
Postman.

Libraries & More

React Navigation
Expo router
Maps SDK, FB SDK
In app Payments and Payment Gateway
Video call SDK
Redux

EXPERIENCE

Software Developer

Inventcolabs Infotech - Jaipur, India
November 2024 - Current

Software Developer

Young Decade IT Software Solutions, Indore
May 2022 - May 2024

PROJECTS

Blinks - Matchmaking App

Technologies: React Native, Firebase, Sqlite, REST API, Video Call SDK, Chat

- Developed this application all by myself that helps people in matchmaking, online dating and chatting
- Implemented post and story sharing on the application
- Added Zego Cloud video calling SDK, and stripe for payments

Wash Squad - Car Washing Service

Technologies: React Native, REST API, Redux, Socket-io, Apple pay

- Designed and developed a mobile application for seamless car washing bookings.
- Implemented a structured two-panel system: Customer, Helper
- Utilized Map SDK and live location tracking in the application

Ubragga! -Quiz Game App

Technologies: React Native, Redux, In-app Purchases, Socket-io, In-app Subscription, Wallet System

- Developed a quiz game application where users can play with each other and win prizes
- Integrated Socket.io for user interactions and game play
- Implemented in app purchases and in app subscription using Google payment system

Quadro - E-commerce application

Technologies: React Native, Firebase, One signal, Redux, Stripe

- Designed an interactive platform for users to be able buy auto parts with categorisation based on vehicle types
- Enhanced UI responsiveness for seamless user experience across both Android and iOS devices.
- Optimized and scaled the application for improved performance and stability.
- Integrated Firebase Authentication for secure phone-based OTP verification.
- Implemented REST API integration to streamline data handling and app functionalities.
